

## Classic's Light Weight Model

With emphasis on simplicity and great value, Classic's Light Weight cab is an excellent option to update cab interiors where weight is of significant concern. Materials are applied directly to the cab shell to eliminate extra bulk therefore allowing for quick production and easy installation to meet short project timelines

### Options:

- 1.) Drop Ceiling C/W SS#4 PANS
- 2.) Clear laminated mirror with required visible code conformance etching
- 3.) Plastic laminate of customers choice
- 4.) 2" flat SS#4 handrail C/W ends returned to wall
- 5.) 2" flat SS#4 handrail with ends returned to wall
- 6.) Stainless steel avesta D8
- 7.) Stainless steel vented kick plates
- 8.) Amtico drop-in floor available

This model, in its many variations, is popular where the elevator mechanical and operating controls are not being modernized until later.
