C-Look[®]

PANEL FITMENT SYSTEM

The perfect fit for your cab renovation

The precise engineering of our C-Look[®] System provides durability and a superior fit and finish for your elevator cab interior. Create a cab as unique as you!

Innovative Ceiling Options

ECR offers a wide selection of custom-designed ceilings to meet even the most demanding design needs.

Patent Pending C-Look[®] Extrusion

- Strengthens joints between panels
- Protects panel edges
- Adds rigidity to cab walls
- Bridges uneven surfaces
- Customizable C-Look[®] inlay (black anodized provided standard)

A Range of Finishes

From laminates to stainless steel to glass and more, you can build a C-Look[®] that matches any decor.

Handrail

- Bolted securely through cab shell
- Removable from inside cab

6" Kick Plate

- Stainless steel cladding resists damage

ECR's customizable C-Look[®] cabs prove there is no compromise between aesthetics and code compliance (ASME 17.1/CSA B44).

All our standard substrates are LEED (Leadership in Energy and Environmental Design) certified. FSC (Forest Stewardship Council) and NAUF (No Added Urea Formaldehyde) compliant.

Why replace a panel when you can just flip it?

Thanks to the C-Look®'s unique dual-sided panels, you can save time and money when you need to replace a damaged panel. Simply remove the damaged panel, flip it over, and set it back into place – your cab's as good as new!

① A damaged cab panel would normally require replacement

② With C-Look® you need only remove the panel, flip it over, and re-install.

③ Your C-Look® looks as good as the day you installed it.

Rockefeller

Named after Rockefeller Plaza, New York, NY (40.76N, 73.98W)

The Rockefeller uses continuous vertical panels to give the impression of a taller cab. The thicker trims, a signature of the C-Look®, gives the cab a bold, modern look.

Shown here with:

- 1.5" Tubular Handrail
- Aspen Slim Line Ceiling
- Arborite Plastic Laminate, W-403 Natural Anigre
- Optional stainless steel C-Look® inlay

* Model does not include flooring

St. Louis Square

Named after St. Louis Square in Montreal, QC (45.30N, 73.34W)

The St. Louis gives a classic look to any cab by using all laminate, with upper and lower panels separated by the handrail.

Shown here with:

- 1.5" Tubular Handrail
- Massif Ceiling
- Arborite Plastic Laminate, T-420 Summer Flame
- Optional stainless steel C-Look® inlay

* Model does not include flooring

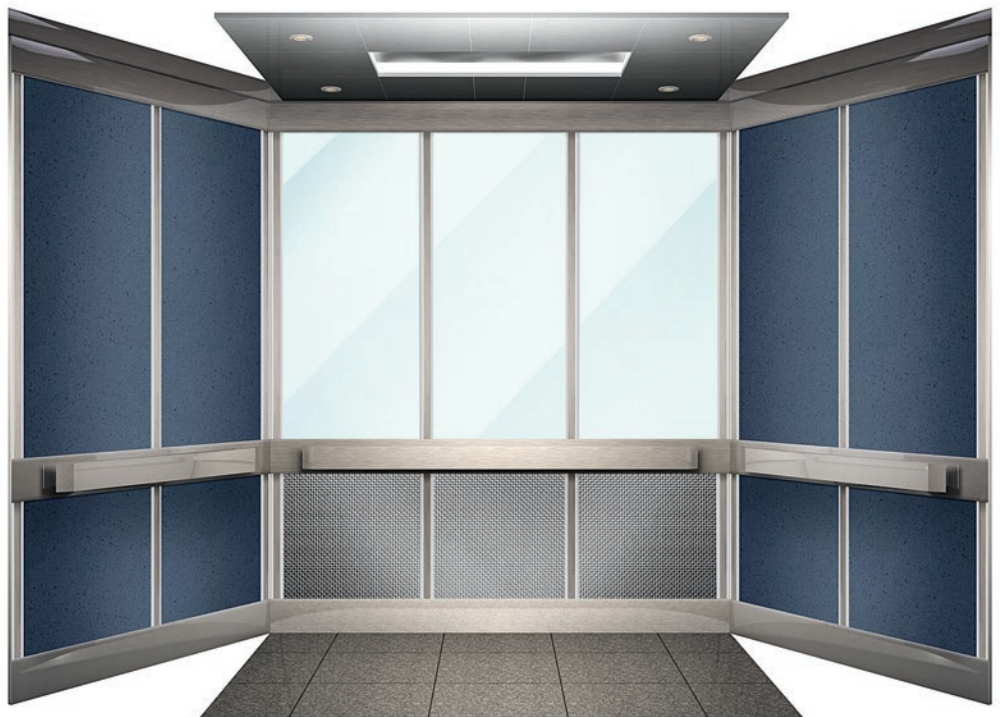

Federation Square

Named after Federation Square, Melbourne, Australia (37.82S, 144.97E)

The Federation uses a variety of materials in a vertical design with a stainless steel C-Look® inlay to create a cab with great contrast.

Shown here with:

- 4" Flat Bar Handrail
- Castle Floating Ceiling
- Side walls in Arborite Plastic Laminate S-568 Midnight Blue
- Rear wall above handrail in clear mirror
- Rear wall below handrail in Stainless Steel Linen
- Optional stainless steel C-Look® inlay

* Glass panels can be mirror or back-painted in a variety of colours

* Model does not include flooring

Plaza Mayor

Named after Plaza Mayor in Madrid, Spain (40.41N, 3.71W)

The Plaza Mayor uses a unique horizontal panel design, separated by our C-Look® stainless steel inlay.

Shown here with:

- 2" Tubular Handrail
- Stowe Vaulted Ceiling
- Arborite Plastic Laminate, W-405 Cherry Brandy
- Optional stainless steel C-Look® inlay

* Model does not include flooring

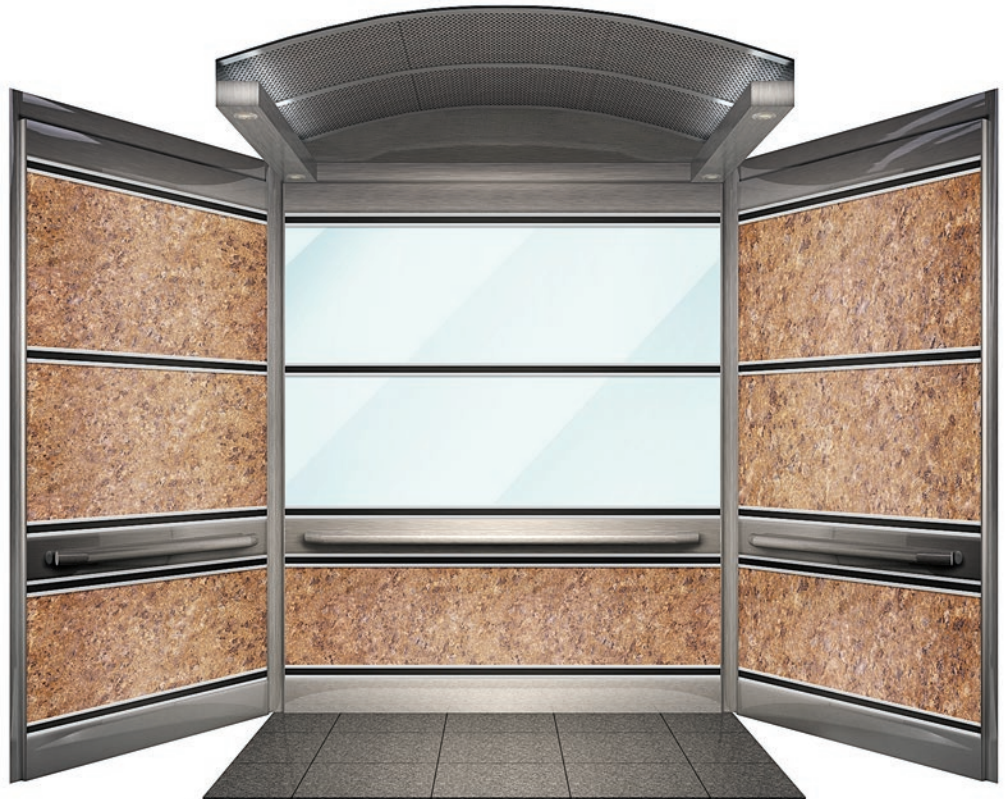

Piazza Del Campo

Named after Piazza Del Campo in Siena, Italy (43.32N, 11.33E)

The use of horizontal mirrors and laminate in the Del Campo, paired with black anodized C-Look® inlay, give the cab a distinctive look.

Shown here with:

- 2" Tubular Handrail
- Vail Vaulted Ceiling
- Side Walls and Rear Wall Below Handrail in Arborite Plastic Laminate P-284 Klondike Gold Granite
- Rear Wall Above handrail in Clear mirror
- Optional three-panel configuration
- Standard black anodized C-Look® inlay

* Glass panels can be mirror or back-painted in a variety of colours

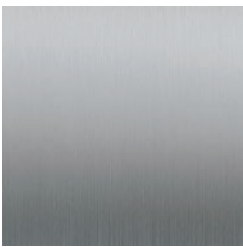

* Model does not include flooring

Customize Your C-Look[®] Cab

We are only limited by our imagination. With modern materials and manufacturing methods, designers and building owners are offered a wide variety of design options.

Metals

Effective use of metal cladding can add architectural beauty while simultaneously ensuring long term durability. Consider the practical value of modern decorative metals like Deco 8 and Titanium Brass.

Deco8

Titanium Brass

Muntz

Handrails

Choose from a variety of handrails shown below. We recommend the 1.5" Tubular handrail as it meets all the requirements of barrier free access.

1 1/2" dia. stainless steel tubular handrail

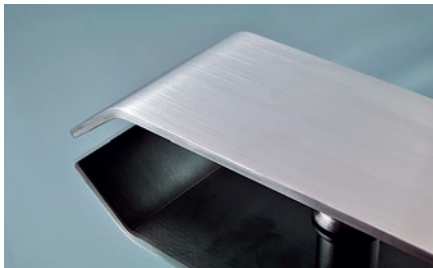

2" dia. stainless steel tubular handrail

2" x 3/8" stainless steel flat handrail

3" x 1/4" stainless steel flat handrail

4" x 1/4" stainless steel flat handrail

6" x 1/4" stainless steel flat handrail

Laminates & Veneers

ECR manufactures with all code compliant plastic laminates. Arborite and Wilsonart are your best buy and availability. We also work with any type of veneer from the very standard to the extremely exotic. To view the complete range of options please visit our suppliers' web sites:
